Journal - Office of Legislative Counsel  
Monday - 4 March 1963

Page 2

STAT 7. [ ] Received a request from Mr. Steen, Office of Congressman Armistead I. Selden, Jr. (D., Ala.), for 50 to 75 additional copies of the Director's overt statement of subversion in Latin America. Advised that the copies would be forwarded first thing in the morning.

STAT 8. [ ] Received a call from Mr. Julian Sourwine, Counsel, Senate Internal Security Subcommittee, who indicated that in keeping with the several meetings of last week regarding the Soviet Orthodox Church matter, if the Agency would provide a blind memorandum on the subject, he would write a speech for delivery on the Senate floor by a Senator who is available. Although he would not be disappointed if this is not possible from an Agency viewpoint, his feeling is that this vehicle would provide a solution to the problem of release of the sizable amount of information for which there is understandably no documentary proof.

STAT 9. [ ] Representative George H. Mahon telephoned to raise certain points concerning the forthcoming briefing. See memorandum for the DCL.

STAT 10. [ ] Dave McGiffert, Assistant to the Secretary (Legislative Affairs), DOD, telephoned to advise, as a matter of information, that some time after the 19th of March the Moss Subcommittee will be going into the question of "managing the news" and will call DOD witnesses. McGiffert indicated that it was apparent that they will have to go into what was put out as news as compared with the facts.

McGiffert again raised the question of whether the Agency would brief Congressman Stratton on the so-called "picture gap." He asked had we heard anything from the White House on this. I indicated we had not but that I would check into it.
